

SECATOL

SBC VOL GEARED ROLLOVER SKIP

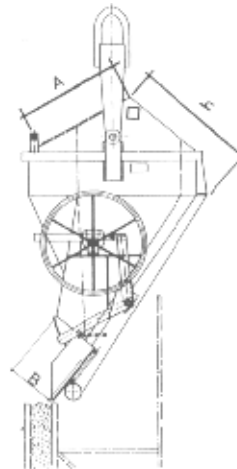

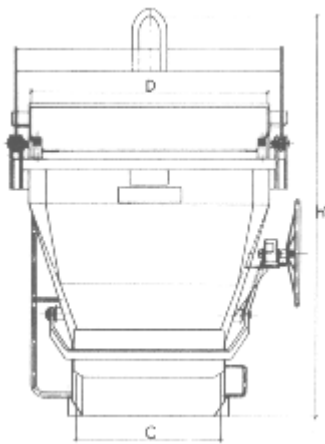

The SBC VOL Geared Rollover Skip is designed for pouring mass concrete into shutters and also large slab areas.

The patented innovative design offers excellent accessibility where handrails and scaffolding may present a problem. Gate operation is by means of a geared handwheel which enables precise and accurate placing.

Capacities of 1200 litres and above are fitted with heavy duty reinforced bale arms.

The SBC VOL skip sits in the horizontal position on the ground for ease of filling and reverts to the vertical when in use.

Capacity in litres	Dimensions in mm									Unladen weight (Kg)
	A	B	C	D	h	h1	Length	Width	Height	
600	500	300	700	1185	650	2195	1680	1536	980	350
1000	500	300	700	1185	830	2545	1980	1536	1165	390
1500	600	300	900	1485	910	2790	2145	1890	1310	556
