

**Use:** Ideal for the storage and movement of waste and other materials to help maintain a clean and efficient site.

**Principle:** The WTS is designed to be lifted using a forklift (or a crane if supplied with lifting lugs).

- The skip is secured using a safety chain
- When emptying, the skip is lifted over the discharge skip and the locking lever is manually released

**Features:**

- Manufactured in 3mm steel
- Reinforced top edges
- Safety chain
- Tip handle with safety catch
- Automatic reset

**Options**

- Castors – 150mm dia. Polyurethane (standard duty) / 200mm dia. Rubber (heavy duty)
- Crane lifting lugs
- 3 Way forklift entry base
- Rubber lining
- Lid

Please contact us for other bespoke sizes / requirements.

Dimensions (in mm)								
Product Code	Capacity (in litres)	Steel (in mm)	Length	Width	Height*	Lip Height	Weight (in Kg)	SWL (in Kg)
WTS750	750	3	1,552	1,260	860	727	170	1,400
WTS1250	1,250	3	1,770	1,320	1,102	917	210	2,000
WTS1750	1,750	3	1,837	1,338	1,210	858	235	2,000

\*When fitted with castors add the following to the overall height  
 150mm Castors + 195mm  
 200mm Castors + 240mm
