Model 142C B 500L

Model 142C B 1000L VO

Use: The laydown concrete skips 142C are directly derived from the upright model 142. It is the most common skip used on building sites. It allows a high precision and speed in the concrete flowing. Its low loading height thanks to its laydown shape ease the loading. Once loaded, the skip automatically returns in vertical position that is to say in unloading position.

Means of handling: Lateral lifting points

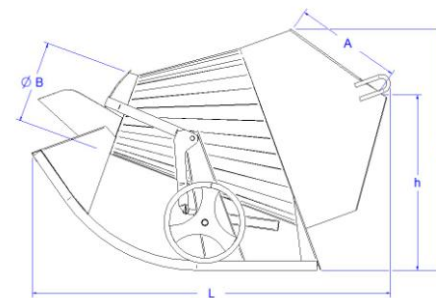

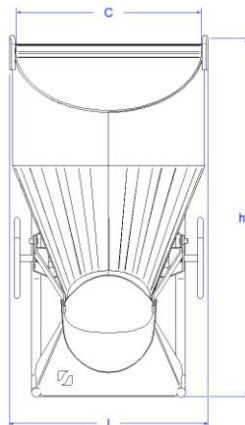

Interest: The conical shape of this skip allows a high precision in the concrete flowing and ease its cleaning.

Finish: Painted

Gate type: Large opening gate

Type of discharge: side discharge

Gate operation: Lever or hand wheel
