

BRICK FORK

Special sheetrocks

WHITNEY

SECAPLAC AT 2.2T

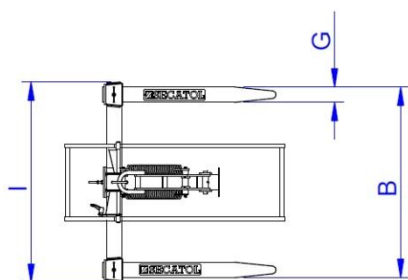

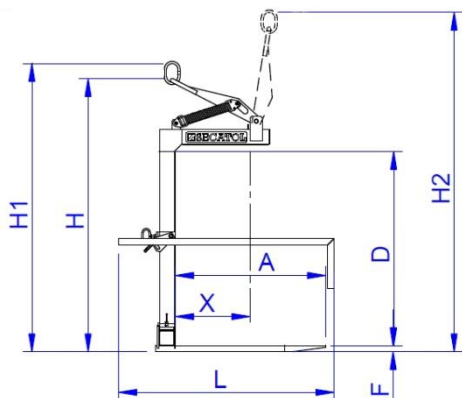

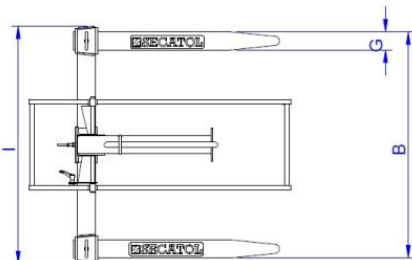

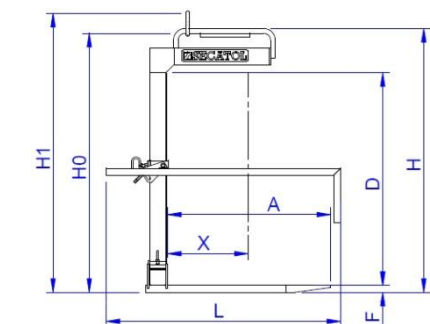

Use: The SECAPLAC brick fork is a derivative of the GER, to lift all types of long plates such as plasterboard, wood plates, doors...

Feature: It is fitted with a folding and adjustable protection to ensure the position of the plates and avoid sliding of the handled products.

Type of forks: Adjustable think forks.

Lifting handling: 2 leveling devices are available for this brick fork

- Dual lifting position
- Self-leveling device with spring
