

SG BLOCK GRAB

With automatic bale arm

WHITNEY

probst
handling equipment

The SG Block Grabs are manufactured from heavy duty box section steel and are suitable for lifting unpalletised materials such as vertically steel strapped blocks, slabs and kerb stones.

The SG80 grab can lift packs with widths from 400mm to 1100mm and has adjustable supports for pack heights of up to a maximum of 800mm and has a SWL of 1800kg.

STANDARD SPECIFICATION

- Lifting eye for attaching crane hook
- Automatic load-release mechanism
- Height adjustable supports
- Rubber load-gripping bars

OPTIONAL EQUIPMENT

- Optional adaptor for forklift use
- Optional safety net
