

UPRIGHT CONCRETE SKIP

with lifting points and fork pockets

WHITNEY

TI PF FU 1500 L

Presentation: This column skip is designed to enable concrete to be poured into narrow shuttering or columns.

Means of handling: This skip can be used with both a crane and forklift.

Gate type: This type of skip can be fitted with all the SECATOL mechanisms (TU, TI or TE).

Discharge type: Centre

Gate operation: By means of a nylon rope attached to a spring return lever for the TI and TU gates and by a wheel for the TE gate.

Skips with capacities of 1000L and above are fitted with the auxiliary gate closing option to ease the gate closure.

Characteristics:

- Skip body reinforcing frame made from channel for **greater strength**.
- Delivered with a 3 metre long hose, Ø 200mm (as option Ø 90, 150 or 250 mm available).

Zoom on a lifting point (European patent)
